Admissions Committee
Oregon State University Turfgrass Management PACE Course
Oregon State University
Corvallis, OR

Dear Admissions Committee,

I am writing to offer my recommendation for Brittany Wohlsein, who is applying for the Oregon State University Turfgrass Management PACE course. Having supervised her for the last six years, I can confirm her exceptional work ethic and dedication to turfgrass management.

Brittany began working at the Bandon Dunes Golf Resort as a greenkeeper for the Pacific Dunes course in 2018. Over the past six years, her impressive career progression—from greenkeeper to her current role as Assistant Superintendent—demonstrates not only her deep knowledge and hands-on experience but also her dedication and leadership within the industry. Her roles have provided her with extensive experience in turfgrass maintenance, disease management, and chemical treatments, aligning well with the PACE course's advanced topics.

Brittany's enthusiasm for turfgrass management is evident in her proactive approach to professional development and her eagerness to learn. Her hands-on experience with fungicides, herbicides, and nematicides demonstrates her solid foundation and readiness for further study.

The financial support from the Oregon GCSA Oregon State University Turfgrass Management PACE Course Series Scholarship would alleviate financial stress, enabling her to fully focus on her studies. Brittany's impressive track record and dedication to the field ensure she will excel in the program.

Thank you for considering her application. I strongly recommend Brittany Wohlsein for admission to your program.

Sincerely,

Jeff Sutherland
